

TO PROMOTE AND CELEBRATE THIS POWERFUL, ENHANCED PRODUCT EARLY TO PRIMARY ESSENCE IS RE-BRANDING

THE ONLY COMPREHENSIVE SOLUTION

Early to Primary Essence now includes SEND assessment capability FREE as part of a seamless tracking and assessment system for all children 0-11yrs. This is in addition to our existing system and E2P+SEND has successfully been piloted across specialist schools this Spring and Summer to ensure it meets the needs of practitioners.

KEY FEATURES

- Record and save evidence instantly to the assessment package (video, photo, and audio of children's work) using our App.
- Attribute evidence easily to children or multiple children whilst also including the developmental stage they are working at for early and primary children (e.g. 30 to 50 months. Or Year 3 Mastery).
- Professional live, half-termly or termly reports including individual electronic records and observations of the child's learning enriched by photographic and video evidence.
- Reports can be viewed securely online, printed, or saved instantly from this package.
- E2P+SEND is a multi lingual package allowing all members of the community to collectively work towards a child's development.
- Parents can engage via their own login and contribute their own evidence of their child's progress and development to enable a shared and full understanding of each individual.
- Direct import from your MIS (e.g. SIMs, Integris G2) which populates the system with all class, year group, teacher and child information. No replication of data. No manual input or manual data analysis and instant report generation.

**WORKING TOGETHER WE CAN ENABLE
CHILDREN TO REALISE THEIR TRUE POTENTIAL**

**Formative, Illuminating, Paperless and Engaging online
assessment and reporting for children from birth to 11yrs.**

Driving outstanding teaching and learning through a meaningful collaboration between teachers, parents and pupils.

We are a **complete electronic system** that is proven over the last 5 years through meeting the assessment and reporting needs of schools. E2P+SEND is developed by teachers for teachers and based on 16 years of experience as Educational Professionals providing assessment solutions.

ASSESSMENT AND REPORTING

E2P+SEND enables the learning community instant access to analytical data which clearly describes the past, present and next steps for future learning of individual children, whilst also analysing this performance at group, whole class/cohort and full school level. Filtering of all data is instantaneous (e.g. PP, SEN, 2yr Funding, boys, girls, ethnicities).

Data Analysis across schools and clusters and Moderation capabilities are part of our fully comprehensive system. End or year council reports are generated automatically by our system for submission.

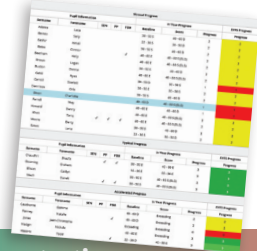

EARLY YEARS/PRIMARY SCHOOL IMPROVEMENT

Through this powerful tool nurseries and schools will become more efficient, flexible, engaging, accurate and collaborative.

They will be able to provide parents with current developmental information on their children's progress and attainment at any point throughout the year to sustain interest and enable a more meaningful dialogue between the key stakeholders in the child's learning environment.

Free Face to Face or Online demonstration.
